snapShot

Extendable Carbon Fiber Monopod Kit

with Built-in Wireless Shutter

User Guide

Introduction

Having difficulty finding the perfect angle for that awesome selfie you have in mind? Let's face it, shaking hands and too much unnecessary motion can cause a great photo to become blurry and un-shareable. Get rid of the hassle of blurry photos with this mobile phone and digital camera retractable monopod! With an extendable rod and easy-to-attach base, this monopod is what you need the next time you take that selfie or group picture while on holiday or even during event gatherings. Now you can all say "cheese" and not have to leave anyone out of the picture or setting the camera on timer mode.

Appearance and Interface:

1. Remote Joystick
2. Big Tripod
3. Small Tripod
4. Smartphone Holder
5. Retractable Monopod

Operation Instructions:

Step 1: For Android™ Devices, kindly scan the QR Code to download “snapShot” application for seamless integration between snapShot and your smartphone.

However, for iOS® devices, no such application is to be downloaded.

Step 2: Press the Power Button. Once the Blue LED flashes, snapShot is now be in Bluetooth pairing mode.

Step 3: Switch ‘On’ the Bluetooth function of your device and scan for ‘snapShot’ and pair it. The Blue LED on the Power Button will now turn off and the Camera Shutter Button LED will light up indicating that your device is now paired with snapShot.

Step 4: If the color of the Camera Shutter LED is Blue, then the remote shutter will work with Android™ devices and if it is Green, then it will work with iOS® devices.

To switch between Android™/iOS® devices, switch off snapShot and turn it on again and press the Camera Shutter Button for 2 seconds. This device cannot connect 2 devices at the same time.

Adjust the focal distance for camera interface using Focal Distance Button’s i.e. ‘+’ and ‘-’. 

Note: Focal distance function works only for Android™ devices in which volume key could be set as zoom key in camera mode.

LED Indicators:

- Charging Indicator Light
- Power Indicator Light/ Pairing Light
- Android™ Connection
- iOS® Connection
